would have crossed the river into Texas, and "wiped out the Yankees."

Large numbers of the wounded officers of Escobedo's army had arrived at Brownsville.

Canales and Escobedo had met and embraced each other in the presence of Gen. Sedgwick.

Fears of an attack upon the United States forces while in occupation of Matamoros had led to extensive preparations for their defense on the Brownsville side of the river, from whence the entire United States military force would have crossed, had it been necessary.

The higher class of Mexicans did not regard the American occupation of Matamoros in a friendly light. The evacuation of Derange by the Imperialists and its occupation by the Liberals is confirmed. The sumy destroyed by the Imperial forces near San Luis is represented to have been the best in the Liberal ranks.

Private Secretary to Maximilian. He leaves for New York by to-day's steamer, and thence will proceed to Paris, via Southampton. He has been very private and reserved ance his arrival and it may be possible he carries dispatches or has some particular business to leave Mexico.

The British Mail Steamer Elder arrived here on the 6th with dates from Vera Cruz to the 2d inst and from the city of Mexico to the 18th nit. Maximilian has decided not to abandon the Empire, and on the first there appeared a proximation communicating said fact signed by Borcau, the Superior Perfect of Police at Vera Cruz. It was distributed among the people and affixed to the walls at the principal corners of the streets, and states that the Emperor "still ascrifices himself for us, post-poses his duties as a man for those devolving on him as ruler in these critical moments through which the country is passing, and solemnly declares that that he will continue as the head of the Government, and will battle without rest till the last drop of his blood is shed for the defense of his dear nation."

to prevent the absorption of the country by the United States.

AMERICAN STEAMER-APPAIRS IN LOWER CALI-

FORNIA.

SAN FRANCISCO, Dec. 12.—The steamer Continental from Maratian arrived last night. She brings the particulars of the evaconation of that place by the Imperialists and French troops, Nov. 11.

The French fleet consisting of the Rhine, Marce and Talisman, appeared off the harbor, which was the signal for a general excitement among the troops and people, as it was believed that Gen. Corona would attach the French while embarking, and the fleet in return would shell the city. The American Consul volunteered his services to induce Corona to let the French depart in peace, which were unsnocessful, Corona having declared it his duty to inflict as much injury as possible.

The same evening the Liberals made an attack upon the French lines, but without any effect. The next day, a strong attack was made and hard fighting took place, the French losing heavily in men and officers.

On the 19th the French Admiral sent a flag of truce to Corona; the result of which was the French were allowed to evacuate the place. The same aftention the Liberal Government proposed to sake her for violation of the Leutrality laws during the past two years. This was energetically opposed by Capt. Shirley, of the U.S. steamer Suwance, and the steamer was allowed to leave.

The affairs in Lower California are at length quict. Navarette, the revolutionist has been driven from his position as Governor, and Gov. Pedrin has assumed the management of affairs.

of the 17th of November, thus leaving that part free from the forces of Maximilian.

The city was left entirely to the protection of the merchants, and four days later the city was occupied by the Liberal forces, under command of Gen. Anna. No disturbances of any kind have occurred, and peace and trade have been restored.

The French while on their retreat to the City of Mexico were very much harrassed by the Liberal forces. At a piace called Arianel, Ni miles from Durango, on the road to Sombreato, the French column was entirely ent up, leaving 200 mon and three piaces of artillery in battle.

San Luis Potosi was evacuated Nev. 13. Gen. Castaguay was in Guadalajara awaiting arrival of troops from Mazalian, and together with the French troops in that city, will march to the city of Mexico. In accordance with orders, the French will withdraw next Spring. They will concentrate in the city of Mexico, and will leave the government in the hands of Porfirio Diaz.

The steamers Continental and Panama had been seized by Corons, General in-Chief of the Mexican Army of the West. The Coulinental was afterward released under an agreement. From a late Mexican correspondence it appear that the Liberals, after directing the French and Imperialists out of Guayamas and Jalapa, commenced quarreling and intriguing among thamselves.

Martinez has been unbreasonably pressing on Gov. Pesquiera for money, and declaring his shiftly to get it if it was not forth coming immediately. Gov. Pesquiera left Guayamas for Hermosillo, saying he would remain no longer and have his authority as Governor insulted. Martinez pursued him and begged his return, to which the Governor finally consented.

Martinez then left for Sinaloa with his cavalry, his infantry going by sea to Marsatian. The people in Sonora were greatly rejoiced at his departure.

Gov. Pesquiera is very popular with the Americans and has done much to invite immigration. The heavy dues imposed by the Impornilists have been greatly diminished and the passport system sholshed. The onerous interior duties have been entirely done away with.

NEW-ORLKANS, Dec. 12.—The well-informed correspondent of The Picagume, writing from Vers Cruz on the 2d inst. gives the following:

The Empire has just passed through a serious crisis. Maximilian has proved himself a clever gold seeker. He has done more than "draw blood from a stone." He has obtained money from the Risheps and clergy of this country. A few days ago they placed at the Emperor's disposal \$25,009,000, for immediate use, and promised a similar sum annually to enable him to keep up an army. WARHINGTON, Dec. 12.—The following is an extract of a letter from Consul Price to the Department of State, dated Hakodadi, Japan, Sept. 30:

THE CENTRAL RAILROAD ELECTION. ELECTION INTELLIGENCE

BY THERGRAPH TO THE TRIBUNE. ALBANY, Doc. 12 .- The long agony is over at last among the Central Railroad people, and as I predicted in yester-day's TRIBUNE, the Richmond-Cagger-Corning-Vanderbilt Ring, which has existed for the last 20 years in this wealthy and influential corporation, to the disgust of the respect-able stockholders, has come to sudden grief by the unexpected election of Keep and Fargo, as President and Vice President of the read.

For many years this disreputable Ring has controlled the Central Road in the interest of the Slaveholding Democracy, and, consequently, on the eve of election every racy, and, consequently, on the eve of election every employé of the road received secret notification of the necessity of his voting the machine ticket in order to preserve his situation. During the life and official existence of Dean Richmond, who had more virility than all the rest of the Democratic party managers in the State, this Central Railroad was an immense party machine, as it controlled, directly and indirectly, 7,000 to 8,900 votes. The minority of the Republican stockholders were entirely impotent, and only raised their voices to be silenced instantly by the despotic and impotent Dean. The reflection of Lincoln and the successive defeats of Seymonr and Hoffman had, however, given hear to the rapidly growing strength of the Republicans, and the result was the culmination resterday in the election of Henry Keep, a man of the people and a Republican in national politics. Corning was a candidate, but whose the test came his influence was found to be a mere cipher. Foreign capital holds the leading influence in the road, and the whole of this was brought to bear influence of Keep, who had but just returned from Krope, with his pockets full of foreign proxies ready to demoish the stately structure that Vanderbilt expected to rear to the god monopoly, by the union of the three roads—Central. Hudson and Harlem—under one corporation and one need, namely, Cornelius Vanderbilt. The Seward interest was solid for Corning, and its acknowledged leader was the United States Marshai; Robert Marray of New-York City. The Vanderbilt people ewned about two millions and a half of the stock of the road. Col. Butterfield of the American Express did the heaviest work against Vanderbilt, by his skillful manipulations, and hardly one of the stockholders but had to undergo some method of porsuasion from this very active old gentleman for the last two days. John F. Acker, a veterus teamboat man, was also on hand, with his cont off, as special pionipotentiary from Daniel Drew and the river interest, to head off Vanderbilt. Sam employe of the road received secret notification of the necessity of his voting the machine ticket in order to pre-

THE VTH ALDREMANIC DISTRICE.

It will be remembered that on yesterday we published the returns of the VIIth District of the Eighth Ward from a copy of the returns seat in to the City Ganvassers by D. E. Hasbrouck, Keeper of Election Records at Poince Headquarters. Our reporter has been shown a copy of the actual returns, made in the Aldermanic District on the night of the charter election. The following is a copy of the same:

Eighth Ward 494 Ninth Ward 857 Fifteenth Ward 344 MEETING OF THE COMMITTER ON PROTESTS. Punctually at 3 o'clock p. m. yesterlay, Aldermen Reily, Moore, Corman, O'Brene and Ely, the Committee on Protest, met in the chamber of the Board of Aldermen, Alderman Ely acting as Chairman. The first protest taken up was in the case of Toreace Duffy. It will be remembered that Mr. Duffy contexts the seat of Alderman Mishes Norton of the Third Aldarmanic District, on the ground that there were a number of illegal votes taken in said District for Mr. Norton. After Mr. Hitchman, the reader, had read the protest, Mr. George M. Curtis, counsel for Mr. Duffy, arose and asia that he desired the raining of the Committee as to thair power in the premiers. He thought that the protest should go before another body, but if the Committee came to the conclusion that it had the power, the confessant would be ready to submit the evidence in the case. Alderman Ely said the Committee had decided unanimously that they cannot go behind the returns as made to the Board of City Canvassers. The protest of Eugene ward, candidate for Alderman, was then read. [Mr. Ward contrist he election of Thosdore Allen, who, it will be respected, by a seconding to the figures given, received a majarity of 52 rotes over Mr. Ward.] In this connectica, the comminant of the Mr. Hasbrouck, published yeasefully, was read. Mr. Fitsgibbons, counsel for Mr. Alben, asked that the case be adjourned until this Thursday, boon. Alderman Varnum said the poll clerks and the canvassers were present, and it would be proper to misma; the original records. Mr. Fitsgibbons said the mattest could be actived as a short time; the whole intestigation would be glad to have the investigation thorough, and he would be increaded to have the mattest before the committee at once. Alderman Varnum said he would be hard to have the investigation thorough, and he would be said to have the matter before the committee, said that the committee had determined to heart he called the present of Thursday. Alderman Ely.—Well, we will fit the hour at 12 velock noon of Thursday.

The Hon. E. G. Spaulding of the Farmers' and Mechanics' National Bank of Buffale having, in a letter to Secretary McCulloch, expressed the opinion that the currency could be moderately contracted "so as to preserve a tolerably easy money market, in order to be able to fund the compound Sires and the Seven-thirties into long gold-bearing bonds, between this and the 15th of July, 1868; and that the specie standard could be reached with at least \$150,000,000 of plain legal-tender United States notes still outstanding," Mr. McCulloch replied as follows:

TERABURY DEFARMENT, WASHINGTON, Dec. 7, 1868.
DEAR SIR: Your favor of the 4th instant is received. You will receive a copy of my report through the Controller of the Currency. It was very hastily written, but is I think sound in doctrine.

What we need is an increase of labor. If we could have the

Currency. It was very hashly written, out is a could have the work we need is an increose of labor. If we could have the productive industry of the country in full exercise we could return to specie payments without any very large curtailment of United States notes. My object has been to keep the market stendy, and to work back to specie payments without a financial collapse. I shall set in the future as I have in the past, with great caution, and attempt no impracticable thing.

I am, very truly, yours.
